

The Bose® Sound System for the Cadillac XLR

AUTOMOTIVE
SYSTEMS DIVISION

9 high-performance speakers

- 1** Two 8-cm mid-high-range speakers in the instrument panel.
- 2** One 8-cm mid-high-range speaker (centrefill) in the instrument panel.
- 3** Four 5-cm mid-high-range speakers in the backrests of the seats.
- 4** Two 25-cm Nd® woofers in the doors.

System electronics

- 5** Digital amplifier mounted in the instrument panel. Includes Bose digital signal processing, AudioPilot® noise compensation technology, TrueSpace™ technology and 7 channels of customised equalisation.
- 6** AudioPilot® microphone mounted in the instrument panel monitors interior noise level.

Each part of the Bose sound system has been carefully engineered to work with the others for better performance. Replacing the factory-installed headunit (i. e. radio-CD/navigation system) or any other sound system component will significantly reduce system performance.
