

**2006 CADILLAC XLR** The bold exterior of Cadillac XLR hints at the power and innovation that lie within. With its advanced 4.6L Northstar V8 VVT (Variable Valve Timing) engine, XLR is a refined powerhouse. Adaptive lighting pivots the headlamps in the direction the vehicle is turning to enhance nighttime visibility. Driver Shift Control transforms the XLR five-speed automatic transmission into a clutchless manual, allowing you to shift as you like with the ease of a simple tap. Magnetic Ride Control delivers performance without punishment, while the StabiliTrak Electronic Stability Control System provides control and confidence on almost any road and in almost any weather condition. Within XLR, contemporary eucalyptus wood accents, Bvlgari-designed gauges, and striking aluminum trim combine to provide a luxurious and inviting environment. At the touch of a button, the hardtop retracts, letting you experience the pure exhilaration of open-air motoring.

Cadillac XLR shown in Blue Steel.
